

## MarketAxess Corporation 401(k) Profit Sharing Plan

**ENROLL NOW** TO TAKE FULL ADVANTAGE  
OF YOUR RETIREMENT SAVINGS PLAN BENEFITS

**YOUR GUIDE TO GETTING STARTED**

**Save for retirement through MarketAxess Corporation 401(k) Profit Sharing Plan easily, regularly, and automatically.**

With all the responsibilities and financial priorities you might be juggling – mortgage payments, parenthood, saving or paying for college, caring for parents, and more – it can be easy to overlook the need to save for retirement. But it's important to consider setting aside money for retirement as early and regularly as you can, because the quality of your retirement years could very well depend on how much you have been able to save.

As you consider enrolling in MarketAxess Corporation 401(k) Profit Sharing Plan and selecting investment options for your account, please review this Enrollment Guide. It contains valuable information that may help you better understand the basics of investing, as well as help you make the most of your company's retirement savings plan.

**LOOK INSIDE FOR:**

- Participating in your plan
- Investment Options
- Next Steps
- Rollover contribution form

Please review this information carefully.

**FIDELITY RESOURCES TO HELP YOU MANAGE YOUR RETIREMENT SAVINGS ACCOUNT:**

Visit [www.401k.com](http://www.401k.com)

Contact Fidelity representatives at 1-800-835-5097 who are available to assist you from 8:30 a.m. to 8:00 p.m. ET any business day that the New York Stock Exchange is open.

¿Habla español? Para empezar, llame a nuestros representantes dedicados que hablan español a la línea de Beneficios de Jubilación de Fidelity (Fidelity Retirement Benefits Line) al 800-587-5282.

## PARTICIPATING IN YOUR **plan**

There are many benefits to participating in the MarketAxess Corporation 401(k) Profit Sharing Plan. One of the primary benefits is that you will receive help reaching your financial goals for retirement. By reviewing the important information in this guide and visiting Fidelity NetBenefits® at [www.401k.com](http://www.401k.com), you can take advantage of what your company and Fidelity have to offer.

### **When am I eligible for the Plan?**

You are eligible to participate in the Plan if:

- you are employed by the Employer
- and you are not:
  - covered by a collective bargaining agreement (unless the agreement specifically provides for you to be covered by the plan)
  - a leased employee
  - a nonresident alien and do not receive any U.S. earned income
  - Employee does not include any individual (i) designated by the Employer as an independent contractor and not as an employee at the time of any determination, (ii) being paid by or through a third party agency, (iii) designated by the Employer as a freelance worker and not as an employee at the time of any determination, (iv) designated by the Employer as an intern, summer intern or consultant, (v) designated by the Employer as seasonal, occasional, limited duration, leased or temporary employee, during the period the individual is so paid or designated; any such individual shall not be an Employee even if he or she is later retroactively reclassified as a common-law or other type of employee of the Employer during all or any part of such period pursuant to applicable law or otherwise.

The Plan does not cover employees who are residents of Puerto Rico.

### **How do I enroll?**

To enroll, log on to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com). You can also set up your beneficiary information by going to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com) or calling a Fidelity

Representative at 1-800-835-5097 to request a Designation of Beneficiary Form to fill out and return to Fidelity.

Remember to choose your investment options when you enroll. If you do not select an investment, your Plan Sponsor has directed Fidelity to place your contributions in the T RowePrice target date fund that most closely aligns with your projected retirement date based upon your birth year.

### **When is my enrollment effective?**

Once you satisfy this requirement, you will become eligible to participate in the Plan immediately.

### **How much can I contribute?**

Through automatic payroll deduction, you may contribute between 1% and 90% of your eligible pay on a pretax and/or Roth basis, up to the annual IRS dollar limit (2024 = \$23,000). You may change your deferral percentage as applicable. Any changes made would take effect at the beginning of each payroll period.

In addition, you can *automatically* increase your retirement savings plan contributions each year through the Annual Increase Program. To sign up, access the Contributions section within NetBenefits®, or call the plan's toll-free number.

If you are age 50 or over by the end of the taxable year and have reached the annual IRS limit or Plan's maximum contribution limit for the year, you may make additional salary deferral contributions to the Plan up to the IRS Catch-Up Contribution Limit (2024= \$7,500).

Unlike your traditional, pretax 401(k) deferrals, the Roth 401(k) feature allows you to contribute after-tax dollars, but then withdraw tax-free dollars from your account when you retire, provided the

distribution is “qualified.” A qualified distribution is one that is taken after the five taxable year period beginning January 1 of the year for which your first designated Roth contribution to the plan is made (or to a previous plan, if that amount was subsequently rolled over to the distributing plan) AND you turn age 59 ½, become disabled, or die. If you are eligible to make traditional pretax 401(k) contributions, you can also make Roth 401(k) after-tax contributions. Your total contributions to the plan (both Roth 401(k) after-tax deferrals and traditional pretax contributions) cannot exceed IRS limits, or your plan’s limit, if less.

**Can I move money from another retirement plan into this one?**

You may be permitted to roll over eligible contributions into this Plan from a previous employer’s retirement plan. For other eligible account types, please see your Summary Plan Description. Once you have confirmed that your Employer will accept your rollover contribution, you can get started in the “Rollovers” section online. **Be sure to consider all your available options and the applicable fees and features of each before moving your retirement assets.**

**Does the Company contribute to my account?**

The Employer will make matching contributions in an amount equal to 100% of your deferral contributions, not to exceed \$17,500.

To be eligible for matching contributions you are required to:

- make employee pretax deferral contributions or Roth 401(k) after-tax deferral contributions. The plan will match on the combined total of these contributions up to the matching limit.

In some Plan Years, your Employer may choose to make an additional discretionary matching contribution to your account. The amount would be determined at Plan Year end by a Board of Directors’ Resolution.

To be eligible for additional discretionary matching contributions you are required to:

- make employee pretax deferral contributions or Roth 401(k) after-tax deferral contributions. The plan will match on the combined total of these contributions up to the matching limit.

- be employed by the Employer as of the last day of the contribution period

For purposes of determining your matching contributions under the Plan, your deferral contributions will include Age 50 and over Catch-Up Contributions described above.

Long-term, part-time employees are not eligible to receive any matching contributions.

The Employer may make a discretionary profit sharing contribution to only those participants who are eligible under the terms of the plan. Please refer to your employer or Summary Plan Description for more detailed information.

Long-term, part-time employees are not eligible to receive any profit sharing contributions.

**When am I vested?**

The term “vesting” refers to the portion of your account balance that you are entitled to under the plan’s rules.

You are always 100% vested in your:

- employee pretax account
- rollover account
- Roth 401(k) after-tax deferral account
- and any earnings thereon.

Employer profit sharing contributions, matching contributions and earnings will be vested in accordance with the following schedule:

Years of Service for Vesting	Percentage
less than 1	0
1	25
2	50
3	75
4	100

**Can I take a loan from my account?**

Although your plan account is intended for your retirement, you may take a loan from your account.

**Can I make withdrawals from my account?**

Withdrawals from the Plan are generally permitted in the event of termination of employment, retirement, disability, as a Required Minimum Distribution (RMD), or death. You may also be

eligible for a withdrawal in the case of a severe financial hardship as defined by your Plan.

Profile section within NetBenefits® and enter your beneficiary information at any time.

### **How do I access my account?**

Within NetBenefits® you have access to your account information, retirement planning tools, and e-Learning workshops® that provide you access to self-paced training on savings and investing principles.

You may call the Retirement Benefits Line at 1-800-835-5097 between 8:30 a.m. and 8:00 p.m. on any business day when the New York Stock Exchange is open. Fidelity Representatives can assist you with transactions and answer many of your questions regarding retirement savings.

### **How do I learn more?**

Within NetBenefits®, you have access to your account information and retirement planning tools including:

- **Live and self-paced learning workshops.** The workshops cover a variety of topics including determining your retirement savings needs, evaluating your investment options and keeping your investment strategy on track to help you achieve your retirement goals.

In addition, you can take advantage of local Investor Centers by scheduling time with a Fidelity Representative to discuss your total investment needs beyond your retirement savings plan. Or, if you prefer, call 1-800-Fidelity for a complimentary portfolio review.

### **How do I change my investment options?**

You can make changes to your investment selections within NetBenefits® or by calling the Retirement Benefits Line at 1-800-835-5097.

Create an asset strategy that's right for you:

- Visit the Learn section within NetBenefits®

### **How do I manage my account?**

Within NetBenefits®, you may sign up to receive alerts via email when your retirement savings account strays from the investment allocation you established.

To update your beneficiary information, go to the

# INVESTMENT options

**Before investing in any investment option, consider the investment objectives, risks, charges, and expenses. Contact Fidelity for a mutual fund prospectus or, if available, a summary prospectus containing this information. Read it carefully.**

What follows is an introduction to the investment options you can choose for your plan account. You can spread your investments among several options to take advantage of what each has to offer and help balance different types of risk. Reviewing this information can help you understand and compare your options. For more complete information about any of the mutual funds available through the plan, including fees and expenses, log on to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com) for prospectuses. Read them carefully before you invest.

This spectrum, with the exception of the Domestic Equity category, is based on Fidelity's analysis of the characteristics of the general investment categories and not on the actual investment options and their holdings, which can change frequently. Investment options in the Domestic Equity category are based on the options' Morningstar categories as of the date indicated. There may be a number of funds in each category and each may have a significantly different risk profile as compared to other funds within that category as well as compared to funds in other categories on the spectrum. Morningstar categories are based on a fund's style as measured by its underlying portfolio holdings over the past three years and may change at any time. These style calculations do not represent the investment options' objectives and do not predict the investment options' future styles. Investment options are listed in alphabetical order within each investment category. Risk associated with the investment options can vary significantly within each particular investment category and the relative risk of categories may change under certain economic conditions. For a more complete discussion of risk associated with the mutual fund options, please read the prospectuses before making your investment decisions. The spectrum does not represent actual or implied performance.

## ADDITIONAL INVESTMENT **options:**

**Target Date funds** offer a blend of stocks, bonds, and short-term investments within a single fund. They are designed for investors who don't want to go through the process of picking several funds from the three asset classes but who still want to diversify among stocks, bonds, and short-term investments.

Investment Options to the left have potentially more inflation risk and less investment risk	Investment Options to the right have potentially less inflation risk and more investment risk

T. Rowe Price Retirement I 2015 Fund I Class		T. Rowe Price Retirement I 2055 Fund I Class
T. Rowe Price Retirement I 2020 Fund I Class		T. Rowe Price Retirement I 2050 Fund I Class

Target date investments are generally designed for investors expecting to retire around the year indicated in each investment's name. The investments are managed to gradually become more conservative over time. The investment risks of each target date investment change over time as its asset allocation changes. They are subject to the volatility of the financial markets, including equity and fixed income investments in the U.S. and abroad and may be subject to risk associated with investing in high yield, small cap and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates.

## NEXT **steps**

Investing in yourself is easy with your retirement plan. You can count on us to support you every step of the way with our account management website, Fidelity NetBenefits®. First log in to [www.401k.com](http://www.401k.com) and we'll show you how to get started step by step.

**Step 1:** Enroll online today. Go to [www.401k.com](http://www.401k.com) and click on "Register Now" when logging in for the first time. Follow the instructions to enroll online. Call the Retirement Benefits Line if you need assistance at 1-800-835-5097.

**Step 2:** Decide how much to invest and enter your contribution per pay period.

**Step 3:** Select how you want to invest your contributions among the investment options available in the plan. Investment performance and fund descriptions are available online or over the phone. If you are interested in additional information about investing, go to the NetBenefits® Library to learn more.

**Enroll today, and start saving for your retirement.**

## DESCRIPTIONS OF INVESTMENT **options**

### STABLE VALUE FUNDS

#### **Managed Income Portfolio Class 2 3704**

**Objective:**

The fund seeks to preserve your principal investment while earning a level of interest income that is consistent with principal preservation. The fund seeks to maintain a stable net asset value (NAV) of \$1 per share, but it cannot guarantee that it will be able to do so. The yield of the fund will fluctuate.

**Strategy:**

The fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions ("Contracts"), fixed income securities, and money market funds. Under the terms of the Contracts, the assets of the fund are invested in fixed income securities (which may include, but are not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds. The fund may also invest in futures contracts, option contracts, and swap agreements. Fidelity Management Trust Company, as investment manager and trustee of the Fidelity Group Trust for Employee Benefit Plans, has claimed an exemption from registration under the Commodity Exchange Act and is not subject to registration or regulation under the Act. At the time of purchase, all Contracts and securities purchased for the fund must satisfy the credit quality standards specified in the Declaration of Separate Fund .

**Risk:**

The Contracts and securities purchased for the fund are backed solely by the financial resources of the issuers of such Contracts and securities. An investment in the fund is not insured or guaranteed by the manager(s), the plan sponsor, the trustee, the FDIC, or any other government agency. The Contracts purchased by the fund permit the fund to account for the fixed income securities at book value (principal plus interest accrued to date). Through the use of book value accounting, there is no immediate recognition of investment gains and losses on the fund's securities. Instead, gains and losses are recognized over time by periodically adjusting the interest rate credited to the fund under the Contracts. However, while the fund seeks to preserve your principal investment, it is possible to lose money by investing in this fund. The Contracts provide for the payment of certain withdrawals and exchanges at book value during the terms of the Contracts. In order to maintain the Contract issuers' promise to pay such withdrawals and exchanges at book value, the Contracts subject the fund and its participants to certain restrictions. For example, withdrawals prompted by certain events (e.g., layoffs, early retirement windows, spin-offs, sale of a division, facility closings, plan terminations, partial plan terminations, changes in laws or regulations) may be paid at the market value of the fund's securities, which may be less than your book value balance.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who seeks a slightly higher yield over the long term than is offered by money market funds, but who is willing to accept slightly more investment risk.
- Someone who is interested in balancing an aggressive portfolio with an investment that seeks to provide stability of price.

**Footnotes:**

The investment option is a stable value fund. It is managed by Fidelity Management Trust Company. This description is only intended to provide a brief overview of the fund.

This fund is a commingled pool of the Fidelity Group Trust for Employee Benefit Plans. Only qualified, participant-directed, defined contribution plans may invest in the fund.

This investment option is not a mutual fund.

On February 6, 2013, an initial offering of the Managed Income Portfolio Class 2 took place. Returns and expenses prior to that date are those of the Managed Income Portfolio Class 1. Had class 2 expenses been reflected in the returns shown, total returns would have been higher.

Management Fee includes the costs associated with managing the investments in the pool. The management fee does not include the wrap contract fees, which are paid to third party wrap providers and do not result in any additional compensation to Fidelity. The wrap contract fees are not separately stated but are included in the Expense Ratio and do reduce returns.

Expense Ratio (Gross) includes management and wrap contract fees. For certain investments, it may also include distribution fees. Please note that the Gross and Net Expense Ratio are the same for this investment.

**Short-term Redemption Fee Notes:**

None

**BOND FUNDS**

**Dodge & Cox Income  
Fund Class I  
OFDZ**

**Objective:**

The investment seeks a high and stable rate of current income, consistent with long-term preservation of capital; a secondary objective is capital appreciation.

**Strategy:**

The fund invests in a diversified portfolio of bonds and other debt securities. The fund will invest at least 80% of its total assets in (1) investment-grade debt securities and (2) cash equivalents. "Investment grade" means securities rated Baa3 or higher by Moody's Investors Service, or BBB- or higher by Standard & Poor's Ratings Group or Fitch Ratings, or equivalently rated by any nationally recognized statistical rating organization, or, if unrated, deemed to be of similar quality by Dodge & Cox.

**Risk:**

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which may be magnified in emerging markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

**Short-term Redemption Fee Notes:**

None

**Objective:**

Seeks to provide investment results that correspond to the aggregate price and interest performance of the debt securities in the Bloomberg U.S. Aggregate Bond Index.

**Strategy:**

Normally investing at least 80% of the fund's assets in bonds included in the Bloomberg U.S. Aggregate Bond Index. Using statistical sampling techniques based on duration, maturity, interest rate sensitivity, security structure, and credit quality to attempt to replicate the returns of the Index using a smaller number of securities. Engaging in transactions that have a leveraging effect on the fund, including investments in derivatives - such as swaps (interest rate, total return, and credit default) and futures contracts - and forward-settling securities, to adjust the fund's risk exposure. Investing in Fidelity's central funds (specialized investment vehicles used by Fidelity funds to invest in particular security types or investment disciplines).

**Risk:**

In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. Foreign securities are subject to interest

rate, currency exchange rate, economic, and political risks. The fund can invest in securities that may have a leveraging effect (such as derivatives and forward-settling securities) which may increase market exposure, magnify investment risks, and cause losses to be realized more quickly.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking potential returns primarily in the form of interest income rather than through an increase in share price.
- Someone who is seeking to diversify an equity portfolio with a more conservative investment option.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Bloomberg U.S. Aggregate Bond Index is an unmanaged market value-weighted index for U.S. dollar denominated investment-grade fixed-rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities with maturities of at least one year.

Duration is a measure of a security's price sensitivity to changes in interest rates. Duration differs from maturity in that it considers a security's interest payments in addition to the amount of time until the security reaches maturity, and also takes into account certain maturity shortening features (e.g., demand features, interest rate resets, and call options) when applicable. Securities with longer durations generally tend to be more sensitive to interest rate changes than securities with shorter durations. A fund with a longer average duration generally can be expected to be more sensitive to interest rate changes than a fund with a shorter average duration.

Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

**Short-term Redemption Fee Notes:**

None

**PIMCO Real Return  
Fund Institutional Class  
OMBS**

**Objective:**

The investment seeks maximum real return, consistent with preservation of capital and prudent investment management.

**Strategy:**

The fund normally invests at least 80% of its net assets in inflation-indexed bonds of varying maturities issued by the U.S. and non-U.S. governments, their agencies or instrumentalities, and corporations, which may be represented by forwards or derivatives such as options, futures contracts or swap agreements.

**Risk:**

The interest payments of TIPS are variable, they generally rise with inflation and fall with deflation. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price

**Pioneer High Yield  
Fund Class Y  
OUSJ**

volatility by holding them until maturity is not possible. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking potential returns primarily in the form of interest income and who can tolerate more frequent changes in the size of income distributions than those usually found with more conservative bond funds.
- Someone who is seeking to supplement his or her core fixed-income holdings with a bond investment that is tied to changes in inflation.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

**Short-term Redemption Fee Notes:**

None

**Objective:**

The investment seeks to maximize total return through a combination of income and capital appreciation.

**Strategy:**

Normally, the fund invests at least 80% of its total assets in below investment grade (high yield) debt securities and preferred stocks. Debt securities rated below investment grade are commonly referred to as "junk bonds" and are considered speculative. The fund may invest in high yield securities of any rating, including securities where the issuer is in default or bankruptcy at the time of purchase.

**Risk:**

The fund may invest in lower-quality debt securities that involve greater risk of default or price changes due to potential changes in the credit quality of the issuer. In general the bond market is volatile, and fixed income securities carry interest rate risk. (As interest rates rise, bond prices usually fall, and vice versa. This effect is usually more pronounced for longer-term securities.) Fixed income securities also carry inflation risk and credit and default risks for both issuers and counterparties. Unlike individual bonds, most bond funds do not have a maturity date, so avoiding losses caused by price volatility by holding them until maturity is not possible. The Fund's sustainable investment strategy will affect the fund's exposure to certain issuers, industries, sectors, regions and countries and could cause the fund to sell or avoid securities that subsequently perform well. In addition, securities that do not meet the sustainable investing criteria could outperform those that do. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone interested in a bond fund that provides the potential for both current income and share-price appreciation.

- Someone who is seeking to complement his or her core bond holdings with a bond investment that seeks higher returns from riskier bonds, and who can tolerate higher risk.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

**Short-term Redemption Fee Notes:**

None

## DOMESTIC EQUITY FUNDS

**Amana Mutual Funds  
Trust Growth Fund  
Institutional  
OV96**

**Objective:**

The investment seeks long-term capital growth, consistent with Islamic principles.

**Strategy:**

The fund normally invests at least 80% of total net assets in common stocks. It invests only in common stocks, including foreign stocks. Investment decisions are made in accordance with Islamic principles. The fund diversifies its investments across industries and companies, and principally follows a large-cap value investment style.

**Risk:**

Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. The Fund's sustainable investment strategy will affect the fund's exposure to certain issuers, industries, sectors, regions and countries and could cause the fund to sell or avoid securities that subsequently perform well. In addition, securities that do not meet the sustainable investing criteria could outperform those that do. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated with growth-oriented stocks.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

**Baron Small Cap Fund**  
**Class R6**  
OIXJ

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 09/25/2013. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 02/03/1994, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

**Short-term Redemption Fee Notes:**

None

**Objective:**

The investment seeks capital appreciation through investments primarily in securities of small-sized growth companies.

**Strategy:**

The fund invests 80% of its net assets in equity securities in the form of common stock of U.S. small-sized growth companies. BAMCO, Inc. ("BAMCO" or the "Adviser") defines small-sized companies as those, at the time of purchase, with market capitalizations up to the largest market cap stock in the Russell 2000 Growth Index at reconstitution, or companies with market capitalizations up to \$2.5 billion, whichever is larger.

**Risk:**

The securities of smaller, less well-known companies can be more volatile than those of larger companies. Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell 2000 Growth Index is an unmanaged market capitalization-weighted index of growth-oriented stocks of U.S. domiciled companies that are included in the Russell 2000 Index. Growth-oriented stocks tend to have higher price-to-book ratios and higher forecasted growth values.

**Delaware Ivy Mid Cap  
Growth Fund Class I  
OETW**

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 01/29/2016. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 09/30/1997, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

**Short-term Redemption Fee Notes:**

None

**Objective:**

The investment seeks to provide growth of capital.

**Strategy:**

The fund seeks to achieve its objective by investing primarily in common stocks of mid-capitalization companies that the manager believes are high quality and/or offer above-average growth potential. Under normal circumstances, it invests at least 80% of its net assets in the securities of mid-capitalization companies, which, for purposes of this fund typically are companies with market capitalizations similar to those of issuers included in the Russell Midcap<sup>®</sup> Growth Index over the last 13 months at the time of acquisition.

**Risk:**

Growth stocks can perform differently from the market as a whole and can be more volatile than other types of stocks. The securities of smaller, less well-known companies can be more volatile than those of larger companies. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is willing to accept the generally greater price volatility associated both with growth-oriented stocks and with smaller companies.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The Russell Midcap<sup>®</sup> Growth Index is an unmanaged market capitalization-weighted index of medium-capitalization growth-oriented stocks of U.S. domiciled companies that are included in the Russell Midcap Index. Growth-oriented stocks tend to have higher price-to-book ratios and higher forecasted growth values.

**Delaware Small Cap  
Value Fund Institutional  
Class  
OSVP**

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 04/02/2007. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 06/30/2000, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

**Short-term Redemption Fee Notes:**

None

**Objective:**

The investment seeks capital appreciation.

**Strategy:**

Under normal circumstances, at least 80% of the fund's net assets, plus the amount of any borrowings for investment purposes, will be in investments of small-capitalization companies. It invests primarily in investments of small companies whose stock prices, in the portfolio managers' opinion, appear low relative to their underlying value or future potential.

**Risk:**

The securities of smaller, less well-known companies can be more volatile than those of larger companies. Value stocks can perform differently than other types of stocks and can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is comfortable with value-style investments and the potentially greater volatility of investments in smaller companies.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 11/09/1992. Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

**Fidelity® 500 Index  
Fund  
2328**

**Short-term Redemption Fee Notes:**

None

**Objective:**

Seeks to provide investment results that correspond to the total return (i.e., the combination of capital changes and income) performance of common stocks publicly traded in the United States.

**Strategy:**

Normally investing at least 80% of assets in common stocks included in the S&P 500 Index, which broadly represents the performance of common stocks publicly traded in the United States.

**Risk:**

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking the potential for long-term share-price appreciation.
- Someone who is seeking both growth- and value-style investments and who is willing to accept the volatility associated with investing in the stock market.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The S&P 500 Index is a market capitalization-weighted index of 500 common stocks chosen for market size, liquidity, and industry group representation to represent U.S. equity performance.

Returns prior to May 4, 2011 are those of the Premium Class and reflect the Premium Class' expense ratio. Had the Institutional Premium Class' expense ratio been reflected, total returns would have been higher.

**Short-term Redemption Fee Notes:**

None

**Fidelity® Contrafund®  
K6  
2946**

**Objective:**

Seeks capital appreciation.

**Strategy:**

Normally investing primarily in common stocks. Investing in securities of companies whose value Fidelity Management & Research Company LLC (FMR) believes is not fully recognized by the public. Investing in domestic and foreign issuers. Investing in either "growth" stocks or "value" stocks or both. Using fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.

**Risk:**

Stock markets, especially foreign markets, are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, or economic developments. Foreign securities are subject to interest rate, currency exchange rate, economic, and political risks.

**Short-term Redemption Fee:** 0.00

**Short-term Redemption Fee Notes:**

None

**Parnassus Core Equity  
Fund - Investor Shares  
QQVO**

**Objective:**

The investment seeks to achieve both capital appreciation and current income.

**Strategy:**

The fund's objective is to achieve both capital appreciation and current income by investing primarily in a diversified portfolio of equity securities. Equity securities include common and preferred stock. Under normal circumstances, the fund will invest a minimum of 80% of its net assets (plus borrowings for investment purposes) in equity securities. At least 65% of the fund's total assets will normally be invested in equity securities that pay interest or dividends.

**Risk:**

Value and growth stocks can perform differently from other types of stocks. Growth stocks can be more volatile. Value stocks can continue to be undervalued by the market for long periods of time. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. The Fund's sustainable investment strategy will affect the fund's exposure to certain issuers, industries, sectors, regions and countries and could cause the fund to sell or avoid securities that subsequently perform well. In addition, securities that do not meet the sustainable investing criteria could outperform those that do. Additional risk information for this product may be found in the prospectus or other product materials, if available.

## SPECIALTY FUNDS

**Vanguard Information  
Technology Index Fund  
Admiral Shares  
OUU2**

**Objective:**

The investment seeks to track the performance of the MSCI US Investable Market Index/Information Technology 25/50.

**Strategy:**

The fund employs an indexing investment approach designed to track the performance of the MSCI US Investable Market Index/Information Technology 25/50, an index made up of stocks of large, mid-size, and small U.S. companies within the information technology sector, as classified under the GICS. The Advisor attempts to replicate the target index by seeking to invest all of its assets in the stocks that make up the index, in order to hold each stock in approximately the same proportion as its weighting in the index. It is non-diversified.

**Risk:**

The technology industries can be significantly affected by obsolescence of existing technology, short product cycles, falling prices and profits, competition from new market entrants, and general economic conditions. Sector funds can be more volatile because of their narrow concentration in a specific industry. Stock markets are volatile and can decline significantly in response to adverse issuer, political, regulatory, market, economic or other developments. These risks may be magnified in foreign markets. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:**

**Who may want to invest:**

- Someone who is willing to accept the potentially lower diversification and higher risks associated with investing in a particular industry or sector.
- Someone who is seeking to complement his or her core holdings with investments concentrated in a particular sector or industry.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

The MSCI U.S. Investable Market Index (IMI)/Information Technology 25/50 Index is a modified market capitalization-weighted index of stocks designed to measure the performance of Information Technology companies in the MSCI U.S. Investable Market 2500 Index. The MSCI U.S. Investable Market 2500 Index is the aggregation of the MSCI U.S. Large Cap 300, Mid Cap 450, and Small Cap 1750 indexes.

The analysis on these pages may be based, in part, on adjusted historical returns for periods prior to the class's actual inception of 03/25/2004. These calculated returns reflect the historical performance of the oldest share class of the fund, with an inception date of 01/26/2004, adjusted to reflect the fees and expenses of this share class (when this share class's fees and expenses are higher.) Please refer to a fund's prospectus for information regarding fees and expenses. These adjusted historical returns are not actual returns. Calculation methodologies utilized by Morningstar may differ from those applied by other entities, including the fund itself.

**TARGET DATE FUNDS**

**T. Rowe Price  
Retirement I 2005 Fund  
I Class  
OIET**

**Objective:**

The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income.

**Strategy:**

The fund pursues its objective by investing in a diversified portfolio of other T. Rowe Price stock and bond mutual funds that represent various asset classes and sectors. The fund's allocation among T. Rowe Price mutual funds will change over time in relation to its target retirement date. It is designed for an investor who retired at or about the target date and who plans to withdraw the value of the account in the fund gradually after retirement.

**Risk:**

The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

**Strategy:**

The fund pursues its objective by investing in a diversified portfolio of other T. Rowe Price stock and bond mutual funds that represent various asset classes and sectors. The fund's allocation among T. Rowe Price mutual funds will change over time in relation to its target retirement date. It is designed for an investor who retired at or about the target date and who plans to withdraw the value of the account in the fund gradually after retirement.

**Risk:**

The target date funds are designed for investors expecting to retire around the year indicated in each fund's name. The funds are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date fund changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in high-yield, small-cap, and foreign securities. Principal invested is not guaranteed at any time, including at or after their target dates. Additional risk information for this product may be found in the prospectus or other product materials, if available.

**Short-term Redemption Fee:** 0.00

**Who may want to invest:**

- Someone who is seeking an investment option intended for people in or very near retirement and who is willing to accept the volatility of diversified investments in the market.
- Someone who is seeking a diversified mix of stocks, bonds, and short-term investments in one investment option or who does not feel comfortable making asset allocation choices over time.

**Footnotes:**

This description is only intended to provide a brief overview of the mutual fund. Read the fund's prospectus for more detailed information about the fund.

**Short-term Redemption Fee Notes:**

None

**Objective:**

The investment seeks the highest total return over time consistent with an emphasis on both capital growth and income.

**This page intentionally left blank.**

**Plan Name (i.e., "the Plan"):** MarketAxess Corporation 401(k) Profit Sharing Plan

**Plan#:** 08626

### **Incoming Rollover Instructions**

"Rolling over" money into the Plan is a three-step process. Please follow these instructions to ensure that this process is completed in a timely and accurate manner. *Please Note:* Failure to follow these instructions may result in a delay in the processing of your request and may jeopardize your ability to roll over your distribution.

#### **Step 1. Request your distribution**

Request a direct rollover distribution from your previous eligible retirement plan. See the Incoming Rollover Contribution Application for a list of the types of plans or accounts from which rollovers may be made to your employer's plan. Please keep in mind that you can only rollover your Roth 401(k) or After-tax contributions into the plan if your plan allows for these types of rollovers. Check with your Benefits Department to see if these types of rollovers are allowed.

- The check should be made payable to Fidelity Investments Institutional Operations Company LLC (or FIIOC), for the benefit of (YOUR NAME). The check must be from the distributing trustee or custodian. (Personal checks are not acceptable.) **Note:** This type of distribution avoids automatic income tax withholding. Also, it avoids the possible 10% early withdrawal penalty if you are under the age of 59 1/2.

*Fidelity does not accept wire transfers of funds. You must request a CHECK from your previous plan or IRA. The check should be mailed directly to you. Once you have received the check, please follow the directions in Step 2.*

#### **Step 2. Initiate your rollover request**

Please log on to [www.401k.com](http://www.401k.com) to initiate your rollover request or complete the Incoming Rollover Contribution Application. Please be sure to complete all items, and sign the form if indicated.

Please Note: This rollover contribution will be invested based on the investment elections you have on file for rollover contributions to the Plan. If you have not previously made investment elections for your rollover contribution please log on to NetBenefits® at [www.401k.com](http://www.401k.com) to do so. Otherwise, it will be invested based on your elections for elective deferral contributions. If you have not made investment elections for either rollover or deferral contributions, this amount will be invested in the Plan-designated default investment option. If you wish to make investment elections for your rollover contribution, please do so by contacting Fidelity Investments prior to submitting this form.

If you are not sure of the plan type that you are rolling out of, please contact your previous Plan Sponsor or IRA custodian for verification. Some plan types are not eligible for rollover.

You should make a copy of the check and the Incoming Rollover Contribution Application for your records.

#### **Step 3. Mail the information**

Mail (1) the Incoming Rollover Contribution Application and (2) the check to:

##### **FIRST CLASS MAIL WITH STAMP:**

Fidelity Investments Client Service Operations  
P.O. Box 770003 Cincinnati, OH 45277-0065

**Overnight Address:**

Fidelity Investments  
Client Service Operations (KC1F-L)  
100 Crosby Parkway Covington, KY 41015

Please include all the information requested. Incomplete forms and the accompanying check will be returned to you and may jeopardize your ability to roll over your distribution.

Once your contribution is accepted into the Plan, you can log on to Fidelity NetBenefits® at [www.401k.com](http://www.401k.com) to view your rollover contribution and investment election(s). Please allow at least seven business days for processing. If you have any questions about rollover contributions, call **1-800-835-5097**. Please be sure you have beneficiary information for the Plan on file.

Plan Name (i.e. the Plan): MarketAxess Corporation 401(k) Profit Sharing Plan

Plan #: 08626

### Incoming Rollover Contribution Application

#### Section One: Participant Information (please print)

The following section must be completed entirely to ensure that your account is properly set up

Social Security #:    -   -

Hire Date: \_\_\_\_/\_\_\_\_/\_\_\_\_ Birth Date: \_\_\_\_/\_\_\_\_/\_\_\_\_

Participant Name (first, MI, last): \_\_\_\_\_

Participant Address: \_\_\_\_\_

City: \_\_\_\_\_ State: \_\_\_\_\_ ZIP: \_\_\_\_\_

Phone (day): \_\_\_\_\_ Phone (evening): \_\_\_\_\_

#### Section Two: Rollover Contribution Information

##### Acceptable rollover funds

The Plan will accept taxable\* money from the following types of plans: 401(a) plans (e.g., 401(k)); 403(a) plans; governmental 457(b) plans; 403(b) plans (e.g., plans of tax-exempt organizations); conduit IRAs (rollover IRAs); non-conduit IRAs (traditional IRAs, Simplified Employee Pension plans (SEP-IRAs)) and "SIMPLE" IRA distributions made more than two years from the date you first participated in the SIMPLE IRA; distributions of taxable monies made to you as (1) a Spousal beneficiary from a current or former spouse from these types of plans, or (2) an alternate payee pursuant to a qualified domestic relations order (QDRO). In addition, the Plan will accept the following money types if indicated below: Roth 401(k), Roth 403(b), or Roth 457(b); After-tax contributions from 401(a) and 403(a) plans.

**\*Taxable money is defined as pretax contributions (employee and employer), earnings on pretax contributions, and taxable earnings on after-tax contributions from your previous employer's plan.**

**Please note:** Making rollover contributions to the Plan that consist of assets other than qualified 401(a), or 403(a) plan assets, or conduit IRA (rollover IRA) assets, may result in the loss of capital gains or 10-year income-averaging tax treatment associated with lump sum distributions from the Plan. If you may be eligible for this special tax treatment, you should consult your tax adviser and carefully consider the impact of making a rollover contribution to the Plan. Please talk to your tax adviser for additional information and review the special tax notice to determine if you're eligible.

Contributions excluding earnings

Date of First Roth 401(k), 403(b),  
Government 457(b) contribution

**Unacceptable rollover sources**

The Plan cannot accept money from the following sources: rollovers from nonspousal beneficiary accounts, payments over a life expectancy or a period of 10 or more years, or Required Minimum Distributions (RMDs). Also unacceptable are Roth IRAs, HSAs and Coverdell Education Savings Accounts (CESAs). In-kind distributions of employer stock are not acceptable; therefore, stock must be sold and the proceeds (including any appreciation realized through the date of distribution) may be rolled over.

**Section Three: Investment Elections**

I direct Fidelity to invest my rollover contribution into my current investment mix applicable to rollover contributions. If I have not previously made investment elections for the rollover contribution it will be invested based on my elections for elective deferral contributions. If I have not selected an investment mix on my own via NetBenefits® or by telephone, I understand that this rollover contribution will be invested in the Plan's default investment option as directed by my employer.

**Section Four: Participant Certification**

I authorize the investment election for this rollover and acknowledge that I have received information detailing my available investment options. I acknowledge that my rollover contribution will be invested in accordance with section three of this form.

I certify that this rollover amount is composed ONLY of money from acceptable sources listed under Section Two, and I have completed the information regarding the source of this money to the best of my knowledge. Also, if the distribution check was made payable to me, I understand that this rollover must be received and deposited to my account within 60 days of receipt of the distribution. I understand that, once invested, these monies will be subject to the terms that govern the Plan.
